

SELLS MAKES PLEA FOR INDIANS' HEALTH

Commissioner, in Annual Report,
Says Health Condition of
Wards Is Deplorable.

Individualizing of the Indians of the United States, and the distribution to them of the millions in property now held in trust by the United States Government, is the aim of Cato Sells, Indian commissioner.

In his first annual report, Mr. Sells describes deplorable health conditions among the Indians, and asks for sufficient appropriation to speed up and maintain the work of making citizens of the Indian wards.

Commissioner Sells says that al-

though the Government has provided approximately \$80,000,000 for schools among the Indians, there are today 10,000 Indian children without any school facilities whatever, principally in the Southwest, and more particularly among the Navajo and Papago Indians. There are, he says, about 7,500 Indian children, defective either physically or mentally, for whose care and training no adequate facilities are available.

There are 25,000 Indians suffering from tuberculosis, while hospital beds will not exceed 200. There are more than 60,000 cases of trachoma among the Indians. Better housing conditions and use of housing facilities are advocated.

Chicago May Publish Its Own School Books

CHICAGO, March 25.—Authorized to investigate the feasibility of having the city publish its own text books for use in the public schools, a committee of four members of the school board and Mrs. Ella Flagg Young, superintendent of schools, began work today.

James M. Leach, who fostered the plan, says a municipal publishing house could manufacture and sell books to school children at one-half the present cost.

PENNSYLVANIA ROAD TO CUT OFF TRAINS

Washington Schedule Is Likely
to Be Changed by Re-
trenchment Move.

Several trains on the Washington division of the Pennsylvania railroad probably will be discontinued in connection with the road's retrenchment policy, now being put into effect.

No trains on the Washington division have been cut off yet, and T. L. Lipsett, district passenger solicitor, said today he had received no notification as to what changes are to be made in the schedule.

According to advices from Philadelphia today, fifty-one trains will be dis-

POISON CANDY SENT WRITER BY CRANK

Objected to Character in Book
She Was Writing, Declares
Husband of Mrs. Bell.

CHICAGO, March 27.—Mrs. Pearl Dolores Bell, writer, clever huntswoman and swimmer, recovering today from the effects of eating poisoned candy, declared some fanatic sent the box of arsenic-coated chocolates that caused her to become violently ill last night.

"I believe some crank sent the candy to my wife," said George H. Bell, her husband.

"Six weeks ago a man called her on the phone, and told her she must suppress a story she was working on because one of the characters, he said, was drawn from his father."
